With the introduction of the new currency, we can expect to see a significant increase in the value of the dollar. This will be reflected in the price of gold, as well as in the price of oil and other commodities.

Under such dry circumstances the large groups  
of corms in bunches can be collected without  
any difficulty. Once removed, corms should  
be kept under green or yellowish light, never

Friendship is more than a feeling.  
It's an attitude, friends make us feel comfortable.

#### A PCCoA and a TCCoA, and a TCoA

How can you tell what is a healthy lifestyle  
and what is unhealthy? The first thing is to  
ask yourself what you eat. Is your diet  
balanced? Do you eat all the foods you need  
every day? Are there whole grains, a variety of  
fruits and vegetables, and enough protein?  
Are there too many sugars, fats, and salts?

Unit 6

Unit 6: The 3rd Conditional

What do they say? In English we use conditionals  
to express what might have been or didn't happen.  
Today we learnt about the 3rd conditional.  
It looks like this: would have + past tense  
wouldn't have + past tense. It's always used after  
but yesterday I saw a man who was walking  
on the beach. He was wearing a white t-shirt and  
blue trousers. He was walking along the beach.  
He is the one who goes to the beach  
nowdays. He doesn't go outside quite so much  
now. He only goes shopping in the supermarket.  
He likes to eat healthy food.

The doctor thinks he goes to the gym a lot.

That's all for today.

On my way back from a business trip to Connecticut, around  
midnight, October 20th, 1970, the lights, after fluctuating, went

I was sitting in my chair, looking out the window, when  
I heard a noise, like a phone ringing, from the outside. It took me
